<p><a href="#">COGCC Inspection Report Summary</a>                      On March 6, 2023 at approximately 11:30AM, I, Inspector Randy Silver, conducted an on-site inspection.                      Location: Rollie J Vincent A #1                      Operator: KP Kauffman                      API#: 123-1255                      County: Weld                      While there, I observed a producing well site and production facility. During this inspection the following possible compliance issues were observed:                      Debris: Rule 606 Corrective action date of 4-7-23 See photos                      Mechanical issue: Rule 608 e Corrective action date of 4-7-23 See photos                      Stained soil: Rule 905 e Corrective action date of 4-7-22 See photos                      Weather conditions: Clear and muddy.                      Inspection due to noise complaint Doc#403330842. At time of Pumping unit did come on and I observed due to the muffler being rusted out was not working properly. Inspector will give operator till the corrective action date to address Muffler issue. If issue is not corrected when location is reinspected inspection will perform sound study to determine what further steps will be taken.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	silverr	03/20/2023
