484012	SPILL OR RELEASE	AC	03/14/2023		-	Anderson Trust #1 WH	EI

**General Comment:**

COGCC environmental inspection to determine progress on Spill ID 484012. This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable. There were no operator or contract environmental personnel on location at the time of this field inspection. Photos attached to document site conditions.

**Incident information:**

Spill Discovery Date: 3/10/2023

Days open: 11 days

Last report: 3/17/2023 reporting is in compliance.

Current site status: No excavation to date. Operator states that "Based on bradenhead test results considering casing gas pressure at time of test and no methane detected during FLIR camera survey, there is not a casing integrity issue related to this periodic water seep." on closure request. However, COGCC inspection found gas surfacing adjacent to the wellhead (see attached video). A stray gas investigation will be required for this incident.

**Environmental****Spills/Releases:**

Type of Spill: \_\_\_\_\_

Estimated Spill Volume: \_\_\_\_\_

Comment: In process Form 19 Document #403348713 requests closure of this incident. Based on this inspection COGCC will deny closure and require a stray gas investigation. Operator shall submit a Form 27 within 90 days of spill discovery.

Corrective Action: All COAs/CAs can be found under Spill ID 484012
