**General Comment:**

[COGCC Inspection Report Summary](#)  
On 03/27/2023 at approximately 12:57 hours, I, Compliance Specialist, Wayne Smelser Conducted an on-site inspection at TEP ROCKY MOUNTAIN LLC CLOUGH RMV 96-28 pad. Location # 335122 in Garfield County Colorado. Location is in close proximity to High Priority/NSO/Density habitat areas & 600 yards from the Colorado River. While there, I observed normal production operations.

During this inspection the following compliance issues were observed:

1. Stormwater - Lack of stabilization & erosion of cut slope/Insufficient BMP's, Waddles need maintenance/Insufficient run on controls/BMP's, Rill erosion & transport of sediment in multiple spots on location, Rip Rap needs maintenance & Ditch needs maintenance with a CA date of 04/12/2023
2. Meter calibration info not conspicuously posted with a CA date of 04/07/2023

A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
