Operator Comment: The lease road near the YC-2 and YC-4 locations has been repaired. A road grader was used to repair the subject section of road by deepening and re-establishing the ditches, which will keep runoff from crossing the road. Road base was pulled from the ditches and used to fill in the erosional scar observed during the inspection. See attached photolog.

COGCC Decision: Approved pending re-inspection

COGCC Representative: operator submitted photos show recent work, repair of erosion gully across road

COGCC Supervisor: may still need compaction/stabilization
