**COMMENTS:**

Renegade requests approval of an alternative MIT for the #3 Myers 21-3 as allowed for by Rule 417.b(3) after Director consideration of any equivalent test or combination of tests.

Renegade believes the #3 Myers 21-3 demonstrates mechanical integrity due to a 11/25/2022 bradenhead test (Doc #403239730) performed showing no bradenhead pressure and tubing/casing pressure of 0/1 psi coupled with a 2021 and 2020 annual bradenhead tests conducted showing no bradenhead pressure.

The #3 Myers 21-3 5-1/2" production casing was completed with a DV tool at 1680' and cemented with 150 sacks of poz cement. The 9-5/8" surface casing landing depth of the #3 Myers 21-3 is 406'. It has been cemented back to surface with 270 sacks. The Fox Hills water sand appears in the #3 Myers 21-3 from approximately 1545'-1650'.

Renegade is attempting to get Western Gas Resources cooperation to sell or turnover abandon pipeline previously used to gather the produced gas from the #3 Myers 21-3 allowing it to be aggregated with other adjacent wells to help with a commercial solution to casinghead gas production in the area. At this point we have been frustrated establishing a dialog. Utilizing the well's produced gas to supply an electrical generator for a data center operation could be the solution for gas disposition if pipeline cannot be secured.

This well has been SI as a result of the Third Creek Gas Gathering System shutdown on 6/1/2018 and was producing at the time of SI. The #3 Myers 21-3 was produced utilizing plunger lift equipment.

**Description**

Operator Comments:

This Form 4 is being filed for the #3 Myers 21-3 in response to a need for an alternative MIT approval to satisfy a COGCC rule to conduct MITs on wells SI longer than two years. Other Renegade wells with similar circumstances have had Form 4's previously approved.  
A recent Form 5B Inactive Well Notice (Doc #403363170) has been recently filed for the #3 Myers 21-3.  
Due to the substantial cement protection of the fresh water zones in the State of Colorado #3 Myers 21-3 it is requested that the #3 Myers 21-3 be given a two year approval for this alternative MIT submittal.  
Conversations with the COGCC staff coupled with the well's circumstances has led to the belief that this filing is ripe for approval.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
