### Adequacy of Operator's General Liability Insurance and Financial Assurance

Describe the adequacy of the Operator's general liability insurance and Financial Assurance to fully address the anticipated costs of Remediation, including the estimated remaining cost for this project (below).

If this information has been provided on a Form 27 within the last 12 months, provide the Document Number of that form.

The General Liability coverage within the Civitas Resources insurance program includes coverage for bodily injury, property damage, and pollution clean-up costs arising from qualifying pollution events of a sudden and accidental nature subject to a \$1,000,000 per occurrence limit and \$2,000,000 aggregate limit. The Civitas Resources insurance program includes Excess Liability coverage of \$110,000,000 per occurrence and in the aggregate which sits over the sudden and accidental pollution within the General Liability coverage. It is the opinion of Civitas Resources that this total tower of limit is adequate to address the costs of remediation associated with any qualifying pollution event.

Operator anticipates the remaining cost for this project to be: \$ 0

**COA Type****Description**

Final Reclamation	COGCC removed closure of this remediation plan for the following reasons: 1) The excavation extent on Figure 2A has sufficient horizontal delineation but no vertical delineation for soil sample point SEP-B04@6' in exceedance of Table 915-1. None of the other soil sample points are greater than five (5) feet bgs. 2) The northern excavation extent on Figure 2B lacks sufficient confirmation samples to fully understand the extent of the contamination. PW-W02@9' and PW-N02@9' have partial horizontal delineation to the south, but no horizontal delineation to the east, west or north; PW-B02@10' can serve as the vertical delineation.
