General Comment:

This is a Stormwater Inspection for a shared access road addressing a previous corrective action along a portion of the access road that crosses a High Priority Habitat (Aquatic Native Species Conservation Waters) at Geary Creek.

An inspection was performed back on February 10, 2023 for Upland Exploration. At that time, COGCC staff, Chris Binschus, only issued a corrective action to Upland Exploration. It was brought to COGCC's attention on 4/7/2023 that this was a shared access road.

Location Construction

Location ID: 421908 CDP: _____

Comment: The Access Road Map within the Location file is not accurate- see Doc.# 2530506.

Corrective Action: Operator shall submit an accurate access road map via Form 4 Sundry Notice.

Date: **04/24/2023**

Reclamation - Storm Water - Pit

Storm Water:

| Loc Erosion BMPs | BMP Maintenance | Lease Road Erosion BMPs | Lease BMP Maintenance | Chemical BMPs | Chemical BMP Maintenance | Comment |
|------------------|-----------------|-------------------------|-----------------------|---------------|--------------------------|---------|
| | | | | | | |

Comment: At the time of the inspection on 2/10/2023, sediment discharge into Geary Creek from the access road was observed. Portions of the access road, east of Geary Creek, are not sufficiently stabilized and the south-facing fill slopes leading into Geary Creek are not stabilized. Operator has failed to prevent transport of sediment into a High Priority Habitat (Aquatic Native Species Conservation Waters). Refer to Photos 1-4.

Upland Exploration is in-process of completing the corrective action work but it is not complete.

Corrective Action: CCRP shall coordinate with Upland Exploration on the corrective action work to comply with Rule 1002.f.

The corrective action date is the date the issue was observed out of compliance.

Date: 02/10/2023

Pits: NO SURFACE INDICATION OF PIT
