

April 14, 2023

To: Colorado Oil and Gas Commission

From: Shane A. and Audra M. Hall

Reference: Abandon, Plugged Gas Well

05-123-07782; Operator: Vessels Oil and Gas Company

Well Name: Sack-Hiett 1

Status: PA 06-15-1983

On April 5th 2023, I (Shane A. Hall) met with Verdad Resources, Jeff Berghorn and numerous other colleagues including a locator service at the well location on the property at 120 County Road 39 Brighton, CO. 80603 (Weld County). The meeting started at 10:00 am and lasted until approximately 12:15 p.m. During the meeting most of the discussion was about the exact location of the old abandoned well. Verdad Resources and Bohlens Well service also discussed what would take place if the property owners allowed the Re-Entry, Plugging and final Abandonment of the Well. At no point has any final documents or negotiation been signed or taken place to allow this to happen, between Property owners and Verdad Resources. It is understood that Verdad Resources would contact the State of Colorado to obtain a permit as needed to allow this Re-Entry to take place at a later date. Should any other follow up or question arise please contact me directly at 720-935-2851 or mail at the address listed above.

Respectfully Submitted,

Shane A. Hall
