**General Comment:****COGCC Inspection Report Summary**

On Tuesday 4/11/2023, I, Inspector Scott Ramsey, conducted a follow up inspection at Caerus PCU T64X-8G, at Location # 316302 in Rio Blanco county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

C/A's from previous inspection document # 700702848 have been completed.

During this inspection the following compliance issues were observed:

1. Some areas of location show signs of lack of stabilization which in turn can lead to tracking issues.
  2. Plow has pushed sediment off side of location.
  3. Tank signage is missing operator information.
  4. Garbage can with unknown soil in it.
- Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.

**Location**Overall Good: ☐**Signs/Marker:**

Type	TANK LABELS/PLACARDS		
Comment:	Tank signage is missing operator information.		
Corrective Action:	Provide proper labeling	Date:	04/28/2023
