Contacted Pumper regarding fence being removed from around tank battery. Inspector was informed the fence had been removed with the plan to remove tanks from location and plug the well. Contractors haven't been able to get tanks removed due to high winds and conflicting schedules. No fluids were observed as being a threat to livestock or wildlife at time of inspection and ground was dry around tanks. The well is currently on the operators form 6A (403122541) and shows an Out of Service date of 01/01/2022	welshb	04/14/2023
