OPERATOR COMMENT AND SUBMITTAL

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete, and that the required components of the Oil and Gas Development Plan have been submitted pursuant to Rule 303.a.(7).

CPX Piceance Holdings (CPX) proposes the continued development of existing Well Pad 36A on Tepee Park Ranch (TPR). The application is submitted as an amendment to approved OGDG ID 482255.

TPR is privately owned and operated by CPX, predominantly for the exploration and production of natural gas. Well Pad 36A has one well that was spud but not completed (DG). It has two permitted wells with expired permits (EP). CPX proposes to use the location to develop 32 new natural gas wells and to plug and abandon the spud but not completed well (Well 132-36; Facility ID 05-045-16949).

CPX also proposes to use Well Pad 36A as a remote frac location to support completions operations for new natural gas wells authorized on TPR Well Pad 25A (Location ID 334457). Well Pad 25A was approved by COGCC on 9/21/22. Likewise, Well Pad 25A is proposed to be used as a remote frac support pad for completions on Well Pad 36A.
