FIELD INSPECTION FORM

Loc ID 413497 Inspector Name: Trujillo, Aaron On-Site Inspection ☐ 2A Doc Num: _____**Operator Information:**

OGCC Operator Number: 10132

Name of Operator: GENESIS GAS & OIL LLC

Address: 1701 WALNUT STREET - 4TH FL

City: KANSAS CITY State: MO Zip: 64108

Status Summary:

- ☒ THIS IS A FOLLOW UP INSPECTION
- ☒ FOLLOW UP INSPECTION REQUIRED
- ☐ NO FOLLOW UP INSPECTION REQUIRED

Findings:

4 Number of Comments

2 Number of Corrective Actions

- ☒ Corrective Action Response Requested

**ANY CORRECTIVE ACTION(S) FROM
PREVIOUS INSPECTIONS THAT HAVE NOT
BEEN ADDRESSED ARE STILL APPLICABLE**

413497	LOCATION	AC			-	FLETCHER GULCH 9-14	RI

General Comment:

On 4/27/2023, Reclamation Specialist conducted an inspection at Genesis Gas & Oil Colorado LLC's FGSU 9-14 Location in Rio Blanco County, Colorado.

This inspection is a follow-up to #696203808 to document compliance with the following Corrective Actions:
-Final Reclamation

It was observed in this inspection that the Location remains out of compliance with COGCC Rules and Corrective Actions.

The following additional issues were observed per this inspection:
-Stormwater Management

Refer to the "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules

Corrective Action: **Comply with Rule 1004.a and conduct final reclamation on the Location and access road.** Date **09/15/2022**

Overall Final Reclamation **Fail** Well Release on Active Location ☐ Multi-Well Location ☐

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
<p>Comment: It was observed in this inspection that stormwater management on the Location and access road is inadequate:</p> <p>-Unstabilized/unmaintained slopes have resulted with rock-falls onto the access road; Location was inaccessible by vehicle. Imminent safety issues also exist due to the unstable boulders and rocks observed on the disturbed slopes.</p> <p>-BMPs to minimize erosion, degradation and off-site sediment transport are missing or insufficient on the Location and access road. Runoff is resulting in gully erosion within ruts of the road; runoff and stabilization controls at road inadequate. Cut slopes lack stabilization.</p> <p>Corrective Action: Comply with Rule 1002.f. Install or repair required stormwater and erosion control BMPs at the Location and access road; temporary controls required until final reclamation work is performed, at which time additional BMPs will be required until long-term stabilization (such as revegetation) of the disturbances have been achieved. BMPs are required to be installed in accordance with Good Engineering Practices, and maintained in proper functioning condition at all times.</p> <p>Stormwater management required until final reclamation is achieved pursuant to 1004 Rules.</p> <p>Date: 05/04/2023</p>						
<p>Pits: <input type="checkbox"/> NO SURFACE INDICATION OF PIT</p>						

COGCC Comments

Comment	User	Date
<p>RECLAMATION COMMENT</p> <p>All Form 2 and Federal "permits to drill" on file for the Location have expired; Form 2 #400473210 expired 4/10/2016, Federal APD (doc. no 1828411) expired 7/31/2010.</p> <p>Inspection #696203808 observed that the Location has been constructed, and various surface equipment (pipe, risers, cellars) have been installed at the Location and along the access road; no wells have been drilled; work to maintain the Location and access road has not occurred. Location subject to Final Reclamation Requirements; inspection required Operator to comply with Rule 1004.a by 9/15/2022.</p> <p>It was observed in this inspection that final reclamation of the Location and access road has not been conducted; Location/Access road has not been decompacted, recontoured/reggraded and reclaimed. Surface equipment along the road/Location has not been removed. Culverts along the access road remain, drainages have not been restored; Access road has continued to degrade.</p> <p>Original corrective action and date remains applicable: Submission of additional permits does not waive compliance with 1004 requirements- See "Notice to Operators: Interim Reclamation Procedures for Delayed Operations" dated January 5, 2017.</p>	trujilloam	05/01/2023
