**General Comment:**

On 4/24/2023 Reclamation Specialist Trujillo conducted a final reclamation inspection at the McLaughlin 64 Location in Rio Blanco, County, Colorado.

Form 6(s) #402682583 shows well was cut/capped on 7/17/2020, followed by reclamation work by Whiting Oil and Gas Corporation.

The following compliance issues were observed during this inspection:

-Fence in disrepair

Refer to the "Location", "Reclamation" and "Storwmater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

It was observed in this inspection that reclamation appears to be progressing towards a uniform, desirable perennial vegetative standard. Perennial grasses observed establishing beneath remaining mulch, and throughout the reclaim.

A few individual Halogeton plants were also observed; weed management is required until site receives a passing final reclamation inspection- weed management advised to prevent the further spread and establishment of undesirable plant species.
