Site Investigation and Remediation Workplan (Initial Form)

This form shall be submitted to the Director for approval prior to the initiation of site investigation and remediation activities. However, this shall not preclude the Operator from taking immediate action to protect public health or safety, the environment, wildlife, or livestock.

This Form 27 describes site conditions as currently understood by the Operator; approval of this Form 27 by COGCC is based on the site conditions accurately described herein; any changes in site conditions identified during or subsequent to the performance of the approved workplan may necessitate additional investigation or remediation which shall be described on a supplemental Form 27. This Form 27 is intended to provide basic information regarding the proposed site investigation and remediation actions, but the workplan may be more fully described in attached documentation.

Closure request is not available for an Initial Site Investigation and Remediation Workplan.

**REMEDIAL ACTION PLAN**

**SOURCE REMOVAL SUMMARY**

Describe how source is to be removed.

Impacts are not expected to be encountered. If they are encountered, the Operator will excavate. If the excavated soil is less than 5 yards, it will be set aside and remediated on site. If excavated soil is more than 5 yards, it will be hauled off site for disposal.

**REMEDIATION SUMMARY**

Describe how remediation of existing impacts to soil and groundwater is to be accomplished (i.e. summarize remedial action plan). Provide a brief narrative description including: technical justification, schedule for implementation, estimated time to attain NFA status, plus plans and specifications for the selected remedial action technology.

Impacts are not expected to be encountered. If they are encountered, the Operator will excavate. If the excavated soil is less than 5 yards, it will be set aside and remediated on site. If excavated soil is more than 5 yards, it will be hauled off site for disposal.

**COA Type****Description**

	Based upon the operators description this location appears to be in violation of Rule 913.c.(9) which requires approval of a Form 27 prior to facility closure. This Form 27 is approved for the oil and gas location only. If operator intends to request closure of other facilities such as well or tank battery that shall be listed under facilities on the next Form 27 Subsequent.
	This Form 27 Supplemental is being approved as submitted. However, the next Form 27 Supplemental must be populated with the Adequacy of Operator's General Liability Insurance and Financial Assurance data field under the Remediation Progress Update tab to describe how Operator's Financial Assurance meets the requirements of Rule 703.b. and General Liability Insurance meets the requirements of Rule 705.b.
