**Re: Response to Warning Letter No. 403361596**

Dear Ms. Burn:

K.P. Kauffman Company, Inc. ("KPK") submits this Response to Warning Letter No. 403361596 ("Warning Letter"), which the Colorado Oil and Gas Conservation Commission ("COGCC") issued on April 2, 2023. The Warning Letter alleges that KPK violated Rules 434.a.(5) and 435 in regard to plugging the N Quebec 1 well ("the Well").

KPK has completed all Corrective Actions ("CAs") required by the Warning Letter, as set forth below:

1. CA for Alleged Violation of Rule 434.a.(5): KPK cut and capped the Well on April 13, 2023. See Document No. 403203798. KPK previously filed a flowline pre-abandonment notification on April 8, 2022 (Document No. 403009107.)
2. CA for Alleged Violation of Rule 435: KPK previously submitted a Form 6, Notice of Intent to Abandon, on September 22, 2022 (Document No. 403054254). This was approved by COGCC on October 7, 2022. KPK then submitted a Form 6, Subsequent Report of Abandonment, on April 13, 2023, after the Well was cut and capped. (Document No. 403203798.) All required Form 6s for the Well are now submitted and accurate. KPK will comply with the deadlines and requirements set forth in Rule 435 for future well abandonments.

Please reach out with any questions or requests for additional information, as KPK looks forward to working with Staff to resolve this matter.

Respectfully,

***K.P. Kauffman Company, Inc.***
