Comment:

Corrective Action:	Operator has failed to perform final reclamation at the tank battery and has failed to respond to the previous corrective action. Gravel was present along the western portion of the tank battery (TB), while the eastern portion of the TB and well location do not appear to have changed since the previous inspection. Refer to the attached inspection photos.	Date 05/26/2022
	<p>Note- the well location and surrounding area were part of the PDC Well Ranch Beneficial Reuse Area (Facility 428254).</p> <p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>The corrective action date remains the same and remains out of compliance.</p>
