RE: #2-16 State  
NE NE 16-6N-90W

Gentlemen:

A permit, No. 84846, was issued for the subject well on July 2, 1984 with an expiration date of October 30, 1984. Although we have contacted you twice since that time asking for a completion report, OGCC Form 5, or a notice of abandonment of location, OGCC Form 4, Sundry Notice, we have received no reply.

If the above request is not honored by May 15, 1985, we will assume the well has not been drilled and any activity thereafter will be in violation of the rules and regulations of the Commission unless a new permit has been issued.

Very truly yours,

*William R. Smith*

William R. Smith, P.E.  
Director

RE: 42-12-13  
10/11/82

10/11/82

A report, No. 8401, was received on the subject of well No. 42-12-13-1000, which was drilled on the date of October 10, 1982. The well is located in the 42-12-13-1000 block, T12N, R12W, S13E, 10th Principal Meridian, Weld County, Colorado. The well is a 2 1/2 inch diameter, 1000 foot deep well. The well is currently producing gas at a rate of 1000 cubic feet per day. The well is currently producing gas at a rate of 1000 cubic feet per day.

If the above report is correct, the well is currently producing gas at a rate of 1000 cubic feet per day. The well is currently producing gas at a rate of 1000 cubic feet per day.

Jim: I don't know where you're going to be next week but thought if you're in the neighborhood you might check these out. Both Damson and Bluebell have worked hard at responding to our request. I can't get a hold of Lemar. We see you this PM if I get back. Bill.
