COMPLETED COMMUNITY CONSULTATION

- KMOG teams began outreach to many of the nearby stakeholders in the fall of 2022.
- Engagement has included mailings, phone calls, emails, and multiple in person meetings.
- Conversations included various topics from location, timing, potential impacts, and grading.
- Feedback has been received and included in further planning considerations.

PLANNED COMMUNITY CONSULTATION

Stakeholder Best Management Practices (BMP's):

- The Stakeholder Relations team is a dedicated resource for stakeholders, and we are available during daytime and evening hours. We strive to respond to within one business day.
- Proactive community consultation includes sharing information, listening to stakeholders, and considering their input and concerns related to all aspects of our operations including public health, safety, and welfare
- We offer multiple ways for stakeholders to communicate with us including phone, mail, email, text, in person, and our stakeholder website. We will adapt our outreach to meet each stakeholder's preference
- The following provides specific details about our planned outreach for the Flower OGDP. A final engagement report will be submitted to the COGCC prior to the OGDP hearing

Planned Community Consultation Throughout Permitting:

- We will proactively engage with owners and tenants within 2,000 feet of each of the Working Pad Surfaces (WPS). The OGDP area is not linguistically isolated; however, we will include an offer for interpretation services
- We offer a variety of engagement opportunities such as community meeting, door-to-door, small group meetings, phone calls, and emails upon request.
- In addition to the multiple in person and phone conversations that have already taken place, we will send the completeness letter to owners and tenants within 2,000 feet of the WPS, which will include the following information:

- Proposed location description and map, including legal description
- The number and orientation of wells, types of equipment, and infrastructure related to anticipated operations
- A description, proposed timeline, and expected duration of planned operations including construction, drilling, completions, production, and reclamation
- The proposed haul routes and traffic volume associated with each phase of operations
- A description of each stage of operation along with a description of our BMPs to mitigate potential impacts including noise, light, odor, dust, traffic, and visual
- Contact information for our Stakeholder Relations team

Planned Community Consultation After Permit Approval:

- Send all required COGCC notices
- Provide frequent project updates and post notices and hearing information on the OxyColoradoStakeholder.com website
- Throughout the entire life of the wells, our Stakeholder Relations team is available via:
 - **Phone: 1.866.248.9577**
 - **Email: ColoradoStakeholder@oxy.com**
 - **Website: OxyColoradoStakeholder.com**
 - **Our 24-hour Integrated Operations Center: 970.515.1500**
