- Notice of intention to drill.....
- Notice of intention to change plans.....
- Notice of date for test of water shut-off.....
- Report on result of test of water shut-off.....
- Notice of intention to re-drill or repair well.....
- Notice of intention to clean out well.....
- Statement of ~~remedial~~ setting casing..... **XX**
- Statement of perforating.....
- Notice to pull or otherwise alter casing.....
- Notice of intention to abandon well.....
- Report of work done on well since previous report.....

May 7, 1951

Following is a ~~notice of intention to drill~~ (On land) (patented) described as follows:  
(report of work done)

Colorado	Logan	Merino
State	County	Field
J-6	McLane	SW SW NW Sec. 34
(Well No.)	(Lease)	(Sec. and 1/4 Sec.)
		7 N
		(Twp.)
		54 W
		(Range)
		6th
		(Meridian)

The well is located 2310 ft. (N) of N and 330 ft. (E) of W  
Sec. 34. (S) 240

The elevation above sea level is 4267 (KB) ft.

Details of Plan of Work: (State names of and expected depths to objective sands; Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

The above described well was drilled to a depth of 131' (KB) on March 21, 1951. Five joints of 10 3/4" OD, H-40, 8 rd thd casing totaling 162.72' were landed at 173.17 (KB) and cemented with 125 sxs of cement. A guide shoe was run on the bottom of the first joint, and top and bottom plugs were used. The top plug was stopped so as to allow 20' of cement in the casing. Good cement returns were obtained at the surface, and the cement was in place at 9:00 p.m., March 21, 1951.

The cement was allowed to set for 36 hours at which time a pressure of 500 psi was applied to the casing for one half hour. No leakage was noticed, so the plug was drilled at 9:00 a.m., March 24, 1951.

Approved: May 22 1951
