Pipe Ram: YES Blind Ram: YES Hydril Type: YES
 Pressure Test BOP: Pass Test Pressure PSI: 5000 Safety Plan: YES

Drill Fluids**Management:**

Lined Pit: _____ Unlined Pit: _____ Closed Loop: YES Semi-Closed Loop: _____
 Multi-Well: YES Disposal Location: Waste Connections/Pawnee Waste

Comment: I spoke with Zach Gentry PDC Company Man about the noise complaint, and that we placed a sound monitoring device between the complainant's home and the well pad, and will pick it up on Thursday 5-18-2023 to retrieve data. We also spoke about the rig getting dampening rubbers to place on the ends of the casing and also picking up smaller loads of casing to help eliminate the clanging and banging noise. Zach mentioned that they will be changing the rig over to line power.

COGCC Comments

Comment	User	Date
<p>COGCC Inspection Report Summary On Tuesday 5-16-2023 at approximately 1100 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection: Initial Inspection due to a noise complaint (vibration, clanging/banging), Form 18 Doc # 403400539. Operator: PDC Energy Inc. Location name: Rio LC Pad Well Name: Rio 26C API #05-001-10470 County: Adams Weather: Clear. Location: Muddy. While there, I observed a multi well pad, active drilling operations at the time of the inspection. During this inspection, I observed no compliance issues: See attached photos. I spoke with Zach Gentry PDC Company Man about the noise complaint, and that a sound monitoring device is set between the complainant's home and the well pad until Thursday. We also spoke about the rig getting dampening rubbers to place on the ends of the casing and picking up a smaller number of casing joints to help eliminate the clanging and banging noise. A follow up site inspection is needed to get sound study information and to ensure that the addressed Compliance issues comply with COGCC rules.</p>	revasr	05/16/2023
