Engineer	<p>Offset Well Evaluation: Existing offset oil and gas wells within 1,500 feet of this wellbore meet standards. No mitigation required. Active Wasatch G injection wells owned by Caerus, SGU *CP01B-27 M23 49, SGU *8506B F26 496 are within the offset evaluation areas. The injection well has been taken into consideration for the cement coverage COA#3.</p> <p>Offset water well check: COGCC evaluated offset water wells within one mile of this proposed well's surface hole location. This information in addition to locally-available geophysical logs and hydrogeologic information was used to evaluate the adequacy of the operator's proposed surface casing setting depth. The deepest water well within one mile is 235 feet. None of the water wells within one mile are for domestic use.</p> <p>Corrected casing table stage tool line item to meet casing table data specifications</p> <p>Offset well SGU #CP12D-23 has a primary TOC of 8450 ft. and a TOC of 6910 from remedial cement operations.
