**SUNDRY NOTICE**

Submit original plus one copy. This form is to be used for general, technical and environmental sundry information. For proposed or completed operations, describe in full on Technical Information Page (Page 2 of this form.) Identify well or other facility by API Number or by OGCC Facility ID. Operator shall send an informational copy of all sundry notices for wells located in High Density Areas to the Local Government Designee (Rule 603b.)

1. OGCC Operator Number: 47120	4. Contact Name: David Stephens	Complete the Attachment Checklist
2. Name of Operator: Kerr-McGee Oil & Gas Onshore LP	Phone: 720-929-6000

1. OGCC Operator Number: <u>47120</u> API Number: <u>05-123-29761</u>
2. Name of Operator: <u>Kerr McGee Oil &amp; Gas Onshore LP</u> OGCC Facility ID # _____
3. Well/Facility Name: <u>Dolph</u> Well/Facility Number: <u>37-1</u>
4. Location (QtrQtr, Sec, Twp, Rng, Meridian): <u>SWSE-1-2N-66W</u>

This form is to be completed whenever a Sundry Notice is submitted requiring detailed report of work to be performed or completed. This form shall be transmitted within 30 days of work completed as a "subsequent" report and must accompany Form 4, page 1.

5. **DESCRIBE PROPOSED OR COMPLETED OPERATIONS**

Kerr McGee Oil & Gas Onshore LP (Kerr-McGee) has closed the reserve pit used to drill the Dolph 37-1 well. The reserve pit was located on the Dolph 15-1 well pad site. A background soil sample (RPBG01) was collected from the base of the reserve pit prior to the start of drilling activities or introducing drilling mud in to the reserve pit. RPBG01 was submitted for laboratory analysis of TPH, BTEX, pH, EC, SAR, arsenic, barium and boron. Upon completion of the drilling activities, the drill mud was removed from the reserve pit and either recycled or land applied. A confirmatory soil sample (RPBG02) was collected from the base of the emptied reserve pit and submitted for laboratory analysis of the above listed analytes. Laboratory results confirm that all analyte levels were within COGCC allowable levels and/or below the background levels detected in RPBG01. Based on the laboratory results, Kerr-McGee is requesting a no further action (NFA) status for the reserve pit. The laboratory reports are included as an attachment to this Form 4.
