General Comment:

On 5/16/2023, Reclamation Specialist O'Malley conducted a final reclamation and stormwater inspection at Caerus Piceance LLC's BJM DISPOSAL-67S92W/6NESE Location #383131 in Garfield County, Colorado.

Additional reclamation is required to achieve uniform perennial vegetative cover.

Refer to the "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

	<p>Location does not meet reclamation requirements; vegetation has not achieved uniform distribution. Transects were conducted indicating vegetation is not 80% of the surrounding reference area. Transect #2 assessed the southern portion of the location which meets vegetation standards at this time. Transect #1 assessed the northern portion of the location which does not meet vegetation standards. See attached data results and photos.</p> <p>It appears that additional reclamation work is required to address areas at the northeast of the location where perennial establishment is very poor and annual species dominate. A corrective action date of 11/15/23 is given to allow for a fall seeding however, earlier seeding may be possible/appropriate.</p>	
Corrective Action:	<p>Conduct additional reclamation in accordance with COGCC 1000 series rules. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Revegetation activities shall be completed no later than 11/15/2023.</p>	Date 11/15/2023
