Comment

This location does not comply with Rule 1003. During this inspection, Staff observed undesirable vegetation (e.g. kochia and russian thistle) growing throughout the location, and a Colorado List C Noxious Weed (e.g. cheatgrass) growing around the produced water pit. The location will need to be managed for undesirable/noxious weeds immediately to prevent spread of undesirable species onto adjacent rangeland. Refer to attached inspection photos for documentation.

Corrective Action

Perform reclamation in accordance to Rule 1003. Manage undesirable/noxious vegetation, and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards. Corrective action date is the date the location was observed out of compliance.

Comment: This location does not comply with Rule 1002.f. At the time of this inspection, staff observed that the pit berms were comprised of unconsolidated material with evidence of sediment transport and rill erosion on the outer walls. More robust stormwater BMPs will need to be implemented to prevent further degradation to adjacent lands. Refer to attached inspection photos for additional documentation.

Corrective Action: Comply with Rule 1002.f.(2) to install/repair BMPs in accordance with good engineering practices. Corrective action date is the date the location was observed out of compliance, as the location should be in compliance at all times.
