Engineer	The submitted plan is not satisfactory. The TOC does not calculate to surface as depicted on the WBD. No samples were taken for a bradenhead test that flow gas throughout the test as required. Plan to produce under a packer does not attempt to determine the source of the gas in the bradenehead. Plan to produce under a packer does not address a potential loss of wellbore integrity, pressures are equalized.	02/14/2022
