Comment:

Please note that a Form 27 for this location was submitted on 10/31/2022. It was then returned to draft on January 6, 2023 without comments. As indicated in the Form 27 (Doc. 403110153). KPK intends to resubmit the Form 27 renewing its request to backfill the excavation. Initial groundwater monitoring results show no organic hydrocarbons above the levels in Table 915-1 and quarterly sampling will continue and reported in Form 27. We believe this will not only satisfy all concerns indicated in the Inspection Report but also move this project towards closure.
