Hey Lindsay,

Good news! Please see below for those locations we can proceed with. Let me know if you need anything else. I will start working on the next list.

Thank you,

Joseph Riemer, MS, MBA, RSO

Hey Lexi,

Nice to meet you and thank you for reviewing these. We will do a survey prior to starting work on the HSR-WEIS 5-21A to confirm the nest is not active, in addition to abiding by timing limitations recommended by CPW.

Thank you,

Joseph Riemer, MS, MBA, RSO

WARNING - This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments.

Hello Joseph,
My name is Lexi Hamous, I am the new Land Use Coordinator for the Northeast Region. For future Form 4 & 6's, please send them directly to me.

After our review of the project and what it entails, below are suggestions that Colorado Parks and Wildlife has in regard to the implementation of this project.
1. HSR-WEIS 5-21A is within .25 mile of BE Nest, we suggest confirming that there are no eaglets on the nest after 7/31

For the other sites, we agree with your below listed BMPs.

If any questions arise, feel free to contact me at alexis.hamous-miller@state.co.us or my phone number 303-916-2987. Have a great rest of your day.

-Stay Wild,

Lexi Hamous (She/Her)
Northeast Region Land Use Coordinator

6060 Broadway, Denver, CO 80216

Subject: OXY: Upcoming F4 & F6 Submittals Within HPH

Hey Brandon,

Below is a summary forecasting additional P&As and subsequent F4/F6’s within HPH for 2023, as identified by our upcoming rig schedule and P&A agenda.

In addition to HPH stipulations, the following BMPs will be applied, as applicable, to each individual location in the attached list:

- ANSCW: KMOG will implement stormwater BMPs during operations to control flow(s) and manage sedimentation.
- BE NEST .25 / .5: KMOG will not conduct operations between 12/1 – 7/31
- BEWNR: KMOG will not conduct operation between 11/15 – 3/15
 - For those locations within both .5 mi BE NEST & BEWNR, the STIP is 11/15 – 7/31
- Mule Deer (MDMC, MDSWR): Between 12/1 through 4/30, KMOG will only perform rig operations during daylight hours M-F. KMOG access roads have speed limit restrictions that all personnel will follow. KMOG will shut down operations if an extreme winter storm is anticipated.
 - Consultation only applicable to F4 wells in the list: [Zelda 25-4HZ](#)
