VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? F

Comment This location does not comply with Rule 1003. During this inspection Staff observed that the interim areas are not progressing towards reclamation standards with evidence of non-uniform vegetation cover resulting in areas of bare soil and undesirable vegetation (e.g. kochia) was observed growing throughout. A Colorado List C Noxious Weed (e.g. cheatgrass) was also observed to be growing within the interim areas and will need to be managed for during the growing season. Additional reclamation activities are required in order to meet Rule 1003 standards. Refer to attached inspection photos.

Corrective Action Perform reclamation in accordance to Rule 1003. Manage noxious weed and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards. Corrective action date is the date the location was observed out of compliance.

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: This location does not comply with Rule 1002.f. During this inspection, Staff observed that northern portions of the production area are experiencing rill erosion. Repair/maintenance of stormwater BMPs should be implemented to stabilize the areas experiencing erosion. Refer to attached inspection photos.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C. Corrective action date is the date the location was observed out of compliance.

Date: 05/26/2023
