COGCC Decision: _____

COGCC
Representative:

4 CA# 172053

Corrective Action: Operator shall immediatiately install, repair and maintain best management practices to protect the environment, public health, safety and welfare and the environment as required by rule 913.b.(5)B.i and COGCC Guidance 913.b.(5)B i-v which requires Operators fence or cover open remediation excavations to prevent access when sites are not attended. The site was not attended at the time of the inspection.

Date: 06/06/2023

Response: CA COMPLETED

Date of Completion: 06/06/2023

Operator Comment: KPK reviewed the documentation provided to the COGCC in FIRR 403419884 and recognized that the photo attachment documenting fence repair on May 25, 2023 had inadvertently been substituted with a photo from May 11, 2022 as noted by the COGCC. KPK has resubmitted a picture of the fence repair from May 24, 2023 herein. As you know, Weld county experienced significant storm events between May 25, 2023 and when the COGCC revisited the site on June 1, 2023. We recognize from your photographs that additional damage to the fencing had occurred during that time and attribute that to those storm events. We have replaced/repared the fencing at the site today, 6/6/2023 and have attached photographs documenting current site conditions. This response is for CA #17400 FIR #710100026 too.

COGCC Decision: _____

COGCC
Representative:

7 CA# 172056

Corrective Action: Refer to location, environmental, reclamation sections and inspection photos for corrective actions and documentation of site conditions at the time of inspection.

Date: _____

Response: CA COMPLETED

Date of Completion: 06/06/2023

Operator Comment: KPK has reviewed document #1311101 and agrees with the COGCC that comments on the Form 27 (#403110153) were in fact provided to KPK. We apologize for any confusion that our inaccurate response to CA171607 may have caused. KPK's statement in FIRR #403419884 that the Form 27 (#403110153) was returned to draft without comments was incorrect. KPK is in the process of updating all out-of-compliance and/or insufficient Form 27s for active remediation sites in Colorado. KPK will ensure that the COGCC comments in document #1311101 will be addressed in any subsequent submittal.

COGCC Decision: _____

COGCC
Representative:

8 CA# 172057

Corrective Action: In accordance with Rule 913.e.(3), Operator will adopt and maintain a quarterly reporting schedule. Operator will maintain quarterly reporting until the site investigation is complete and the implementation schedule can be updated.

Date: 08/09/2022

Corrective Action date back dated to the last Form 27s due date for Remediation Project #23124.

Response: CA COMPLETED

Date of Completion: 06/06/2023

Operator Comment: KPK is aware of the outstanding monitoring and reporting for the active remediation projects 23124 and 14115 and have placed them in the queue with all of KPKs spill/release and remediation sites that are currently active.
