**Financial Capability Statement  
Wexpro Development Company  
Operator #10568**

Wexpro Development Company (Wexpro) develops and produces dedicated natural gas reserves on behalf of our utility, Dominion Energy, and delivers natural gas at its cost of service under the terms of a 1981 comprehensive regulator approved agreement.

The Agreement allows Wexpro to recover its well costs and earn a calculated return on our "investment base".

Wexpro has a proven track record of strong reserves and production optimization. Wexpro and prior company predecessors have operated wells in Colorado since the 1940s.

Wexpro has the financial capability to act in the best financial interest given socioeconomic and environmental conditions. Asset retirement obligation trust accounts have been established to meet the plugging and abandonment needs of the company. Additionally, Wexpro's financial portfolio stability is supported by surety bonds, general liability insurance, first party property insurance, workers compensation insurance, plus many other large corporate insurance programs. In addition, the company's strong financial position and investor grade credit ratings provides for solvency and continuous operations during economic downturns.
