Comments:

Final reclamation operations on the Kennon 1 Well Site (Loc. ID 312373) were initially planned for spring and summer 2022. In spring of 2022, Caerus scheduled the adjacent Well Site (Hyrup 15-44C, Loc. ID 334356) for well abandonment and final reclamation. As the two locations share a greater disturbance area, the reclamation plan and schedule for the Kennon 1 was modified. Caerus intends to complete final reclamation operations for both locations simultaneously to ensure proper recontouring of the greater area and prevent unnecessary duplicate disturbance. Final Facility closure of the Hyrup Well Site is pending: Remediation Project #25660 has not yet achieved final resolution and No Further Action designation. Additionally, ground conditions are not currently suitable for proper topsoil salvage and earthwork operations due to winter weather. Caerus respectfully requests the Director grant an extension of the reclamation due date to 11/4/2023 for the Kennon 1 Well Site (Loc. ID 312373), per Rule 1004.a., due to unusual circumstances encountered during final reclamation preparations. Current reclamation due date is 11/4/2022 (12 months following closure of associated Facilities). Caerus will commence final reclamation operations when ground conditions are suitable and Remediation Project #25660 is achieves closure. It is anticipated that reclamation operations will be completed no later than September 2023, but Caerus will attempt to complete operations in spring of 2023, prior to the growing season. The locations are currently in Caerus's CDPHE stormwater program, inspected on a 14-day schedule, to ensure the disturbance is stable and stormwater control measures are in proper functioning condition.

Reclamation Specialist	Records show the Kennon 1 (077-05155) was PA 9/2/2021. Pursuant to Rule 1004.a, final reclamation work was required to be completed by 9/2/2022.  COGCC understands Caerus's intent, however, after review it has been determined that this is not an "unusual circumstance", and the request for an extension to reclaim the Kennon 1 Location is "denied"; the Location will remain out of compliance with 1004 Rules until reclamation has been completed.  COGCC Staff requests that once Reclamation work has been completed, Operator submit a Form 4 Sundry to provide notice of work.	06/16/2023
