**Subject:** RE: [EXTERNAL] Re: Consultation Request for Upcoming Civitas Operations (Spreadsheet)

Great, thank you Brandon!

I've updated the Hiner BMP to the following:

- *The operator is making every effort to schedule operations outside the bald eagle roost season (Nov 15 - Mar 15). If operations must occur during the roost season, at least two non-consecutive roost surveys (one AM and one PM), separated by one week, will be conducted:*
  - *If no roosting is observed, work will proceed as normal.*
  - *If roosting is observed within 1/2 mile, operations will be limited to two hours post-sunrise to two hours pre-sunset.*
- *Operations will not extend into the river channel.*

Thanks again,

**Lilah Hubbard**

Good afternoon Lilah,

Thanks for your patience and for ping me again.

I approve of those BMPs, except for Hiner - I'd like to see it match the other roost BMPs.

Should you have any questions, please let me know.

Regards,

**Brandon B. Marette, CWB®**

Hi Brandon,

I am following up on this request with an updated spreadsheet attached (added a few more sites in purple). I've also cc'd Ben Swigle and Kyle Battige since there are a few sites in aquatic HPHs.

Please let me know if CPW concurs with the proposed BMPs or if you have any questions.

Thank you!

Afternoon Brandon,

I've attached a spreadsheet of Civitas' upcoming workover operations in HPHs, along with proposed BMPs for each. Please review and let me know if you have any questions.

Thank you!
