General Comment:

COGCC Inspection Report Summary

On Thursday 6/22/2023, I, Inspector Scott Ramsey, conducted a routine inspection at TEP Specialty 34A, at Location # 335157 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A (Stored equipment) from previous inspection are still present form DOCUMENT # 700704412. Therefore C/A date remains the same (12/27/22). Debris, tank labeling and lack of stabilization from previous inspection have been addressed.

During this inspection the following compliance issues were observed:

1. Meter calibration card not conspicuously posted.
2. Stored equipment (ECD disconnected from everything) from previous inspection still present. C/A date remains 12/27/2022
3. Holes in secondary tank containment
4. Unmarked dead man
5. Tanks are venting, video with FLIR camera.

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
