Comment: **The location has not been reclaimed in accordance with 1004 Rules. Soils have not been properly decompacted by cross-ripping to 18 inches. The location consists of mostly undesirable weeds which have not been controlled and desirable vegetation is not establishing. There is still debris/trash that remains at the location. The location has not been monitored and maintained to ensure reclamation progresses and there appears to have been abundant moisture this season. Previous corrective action has not been completed.**
