**General Comment:**

On 6/26/2023 COGCC staff, Kris Neidel inspected the Produced Water discharge, tank battery, Well 081-06472, Pit 116686 and surrounding area. Weather; 80 degrees and dry at the time of inspection, the Mormon crickets were very thick. Staff started the inspection in the area understood to be a part of Produced Water Discharge CO-0039683. Staff walked from the old discharge pond, identified as "discharge 001" (attached), when water was observed on the access road, the water was followed to its current discharge point, identified as "6/26/23 discharge point". The produced water discharge point(s) are identified in Figure 1 and Figure 2 (attached) and close up photos in "photo #24" and "Photo #25". Hydrocarbon and salt staining were observable in the discharge path.

Corrective Actions: Submit a Form 19 spill report for release of an unknown amount of hydrocarbon. Remove all visual signs of Hydrocarbon in the discharge, soil samples shall be collected in the areas of observed hydrocarbon. Prevent hydrocarbon from visually accumulating in any area of the discharge. Contact Kris Neidel 970-846-5097 (Kris.Neidel@state.co.us) with questions on this inspection.

Well was pumping at time of inspection.

**Inspected Facilities**

Facility ID: <u>116614</u>	Type: <u>PIT</u>	API Number: <u>-</u>	Status: <u>AC</u>	Insp. Status: <u>EI</u>
Facility ID: <u>116686</u>	Type: <u>PIT</u>	API Number: <u>-</u>	Status: <u></u>	Insp. Status: <u>EI</u>
