SUBSEQUENT REPORT OF:

WATER SHUT-OFF	<input type="checkbox"/>	REPAIRING WELL	<input type="checkbox"/>
FRACTURE TREATMENT	<input type="checkbox"/>	ALTERING CASING	<input type="checkbox"/>
SHOOTING OR ACIDIZING	<input type="checkbox"/>	ABANDONMENT*	<input type="checkbox"/>
(Other)	<input type="checkbox"/>		

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

18. Date of work February, 1981

* Must be accompanied by a cement verification report.

Approval to abandon this well is requested. The request is necessitated by 100% water production from this well, with no trace of oil or gas. Total oil production from this well is 109,800 bbls. Oil production from this well declined to zero in the last half of October, 1980. A small acid job was performed with an increase in water production without an increase in oil. Based on those results, the well is uneconomical.

The well will be plugged & abandoned, upon your approval, in the following manner

1. Run sand then 5 sxs. cement over perforated interval (5049'-5051').
2. Cut & pull 4½" 11.6# casing at freepoint. (estimated @ 4100').
3. Run 20 sxs. cement @ 157' (base of 8-5/8").
4. Run 10 sxs. cement @ surface; weld on plate.
