Re: Change of Operator/ownership
Long Lease, sec 25-6N-67W
(Long #1,2,3)

Dear Mr. Long,

I am again requesting information regarding your plans for the three wells located in section 25-6N-67W. My letter dated November 7, 1990 has gone unanswered. I have attached a copy of this letter if your original was misplaced.

I have included the plugging information you will need to proceed with abandoning the referenced wells unless you plan to produce the three wells. If the information I have supplied you with is not clear please contact me at 894-2100. This information includes the surface casing set depth I obtained when the wells were being drilled and a verbal approval sheet showing plugs required to comply with our rules. The amount of free pipe available for salvage can be calculated once you have a rig on the hole and a casing stretch for free pipe obtained.

I look forward to your response no later than September 30, 1991.

Yours truly,

Stephan Pott
Sr. Engineer
