COLO. OIL & GAS CONS. COMM.

Oil and Gas Conservation Commission  
Mr. William R. Smith  
1313 Sherman Street  
Denver, Colorado 80203

Dear Mr. Smith:

In response to your letter of January 14, 1985 I would like to inform you that the problem of closing pits in the neighborhood has existed for 16 to 18 months.

This problem needs your attention even though nothing can be done in this cold weather.

I am located 1 mile east of the stop light in Windsor then 1 mile south and 1/2 mile east. My well is in the KOD-ELL formation producing both oil and gas. The well was brought into production September 1, 1983. The gas line hookup was completed March 16, 1984. There was continued venting of gas until the gas line hookup was completed.

Seven months passed before any action was taken to close the pits on my property. Only action from my lawyer brought results.

The people in this Oil Company do not have the best record. I have received promises but no action. On March 1, 1985 we will have a court hearing.

Any help you can give us either as a witness or by letter would be greatly appreciated.

Please advise as to what date would be convenient.  
My phone number is 686-2959

Very Truly Yours
