The Well is located 660 Ft. (N) of Section Line and 1980 Ft. (E) of East
 Section Line. (S) (W)

* To be reported later.

The elevation above sea level is * Ft.

Details of Plan of Work: (State names of and expected depths to objective sands.
 Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing
 points, and all other important proposed work.)

We propose to drill the above well as a Muddy sandstone test to an approximate depth of
 4450'. 8-5/8" casing will be set at approximately 500' w/250 sacks. In the event that
 commercial production is encountered, 5 1/2" casing will be set at or near total depth.
 We will pressure fracture the productive interval if necessary.
