

CA 1 of 4 - Tank capacity not posted on condensate tank.

CA 2 of 4 - Unknown fluid (water) accumulating around bradenhead.  
Water removed

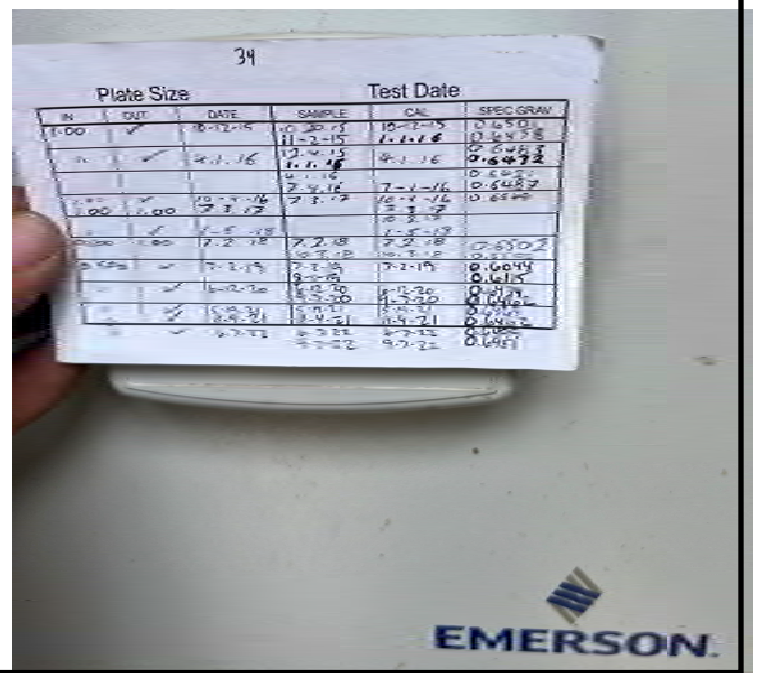

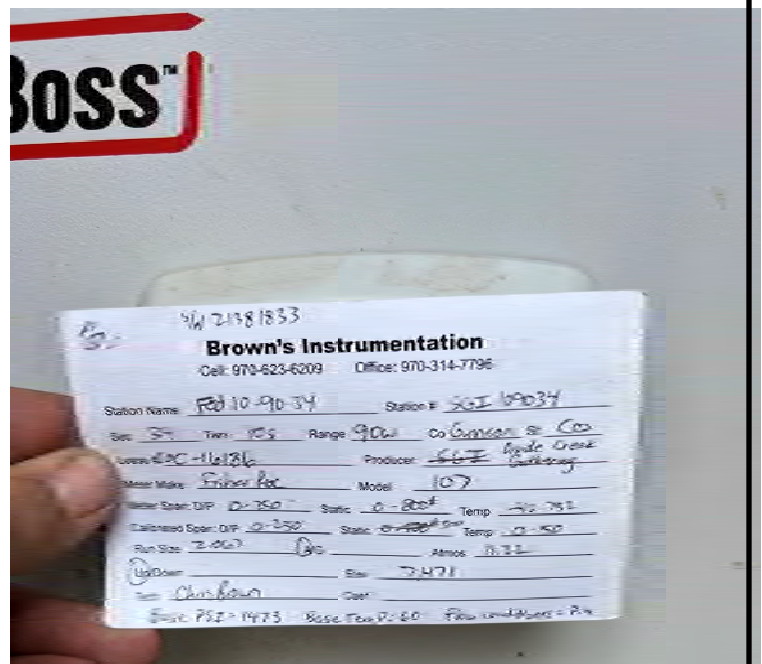

CA 3 of 4 - Gas meter calibration record not conspicuously posted Rule 430.d.(2).  
Calibrations Dates are Located in EFM—Not locked

d. Meter Calibration.

- (1) Meters will be calibrated annually unless more frequent calibration is required by contractual obligations or by the Director. All calibration reports will be created, maintained, and made available as operation records pursuant to Rule 206. In the event two consecutive meter calibrations exceed a 2% error, the Operator will report the test results to the Director who may require the Operator to show cause why the meter should not be replaced.
- (2) The Operator will conspicuously post and maintain the date of the last meter calibration in a legible condition at each meter at all times.

CA 4 of 4 - Wildlife entry hazard on condensate tank. Cap Installed 7/1/23
