**OPERATOR COMMENT AND SUBMITTAL**

The Valley Farms "I" Pad (COGCC Loc ID: 335553) is an existing Oil and Gas Location that was previously operated by Ursa Energy, the Valley Farm "I" currently has ten (10) existing wells. This location was constructed for the purpose of drilling and completing twelve (12) proposed wells. All twelve (12) conductors were set but only ten (10) well were drilled, TEP has closed the remaining two (2) conductors and interim reclamation of the oil and gas location was completed Dec 9th, 2021.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.

### **General Comments**

<b><u>User Group</u></b>	<b><u>Comment</u></b>	<b><u>Comment Date</u></b>
Reclamation Specialist	Approval/Passing of the form 45 acknowledges that the Energy and Carbon Management Commission has received the notice. Areas detailed on the Form 45 as-built displayed on the COGIS map may not comprise all areas not needed for production operations, therefore requiring interim reclamation. From layout drawing, assumption is that areas outside of Working Pad Surface and within disturbed Location boundary will undergo interim reclamation. A field inspection will be conducted at a future date to evaluate compliance with interim reclamation requirements.	07/14/2023
