RE: Request for Consent to Exception Location
Benz 11-24 #1
1056' FNL & 791' FWL
NW/NW Section 24, Township 16 South, Range 52 West
Lincoln County, Colorado

Dear Mr. & Mrs. Ansley:

Union Pacific Resources Company (UPRC) is applying to the Colorado Oil & Gas Conservation Commission for a permit to drill the above referenced well. The placement of this well is 1056' from the north section line and 791' from the west section line and, as such, is 288' from the south lease line. This location was determined to be the most favorable location to test the Morrow channel sands based upon a specific shot point of seismic data running through this area.

Rule 318 of the Colorado Oil & Gas Conservation Commission (COGCC) requires that this well be located not less than 600' from any lease line unless a waiver or consent signed by the mineral owner toward whom the well location is encroaching (you) is obtained. In that event, the Director of the COGCC may grant an exception to the 600' location requirement and allow UPRC to drill the well at the non-standard location.

If you have no objections to the placement of this well at the above referenced location, please sign and date your consent in the space provided and return to UPRC in the enclosed envelope at your earliest convenience. If you are not in agreement with this location exception, you may file a written protest with the Commission within thirty (30) days of receiving this letter. The address of the Commission is 1580 Logan Street, Suite 380, Denver, CO 80203.

If you have any questions or need additional information, please contact Mr. Richard Stites of this office at 817/877-6713.

Very truly yours,

UNION PACIFIC RESOURCES COMPANY
