Lamar

You have my approval. Please limit your access to existing roads as much as possible. I will also need to unlock the gates. Please forward my cell phone to the correct person to coordinate. 303-868-7978

Subject: Access to Property

You don't often get email from lsafi@verdadoil.com. [Learn why this is important](#)

Doug,

I recalled the last email due to a typo. Please disregard and review this email instead. Thanks!

We need access to Slash V's surface in order to re-plug the wells listed below and before completing the wells we plan on drilling in the near future. The first step will be sending out surveyors to find the exact coordinates of these old wells. Once they are done with their work, we'll file the necessary permits with the COGCC, and finally we'll send the workover rig and equipment to perform the work.

Well Name	Operator	API	Surface Location	Lat	Long
<u>Hallet 1 (N)</u>	Vessels Tom	05-123-07350	NESE 35 10N59W 6	40.78968	-103.938669
<u>Hallet 1 (S)</u>	Gulf Oil Corp	05-123-05736	SESE 35 10N59W 6	40.78897	-103.938709

We are trying to get the surveyors out there as soon as possible, and the workover rig should be out there closer to May or June.

Can you please give us the authority to enter onto your surface to complete the work?

Please let me know if you need any additional information in order to expedite this request and approval.

Best,

Lemar Safi
