Comment: PER FIR 708200090: This location does not comply with Rule 1002.f. At the time of this inspection, Staff observed that the production areas were not properly stabilized which resulted in sediment transfer into the stormwater ditch near the topsoil area. The ditch and berm BMPs will now require maintenance as they are not properly functioning at the time of this inspection. Refer to attached photos for documentation.

Corrective Action: Install or repair required BMPs per Rule 1002.f. in accordance with good engineering practices. Corrective action date is the date the location was observed out of compliance as it should be in compliance at all times.
