Comment: This location does not comply with Rule 1004. During this inspection, Staff observed road base material throughout the former well location and the presence of undesirable vegetation (e.g. russian thistle). Previous inspections documented poor growth possibly due to salt kill issues; this could not be verified at the time of this inspection as the field was currently fallow. The location will need to be managed for undesirable vegetation and the road base material will need to be removed. Refer to attached inspection photos.

Corrective Action:	Comply with Rule 1004. Corrective action date is the date the location was observed out of compliance.	Date	08/09/2023
