Denver, Colorado 80203

Attention Mr. Jules J. DeSalvo  
Asst. Oet. Engr.

Gentlemen:

I am in receipt of your letter under date of January 6, 1969, in reply to my letter of the second, and regarding a well in Township 34S., Range 41W., 6th P.M., in Colorado.

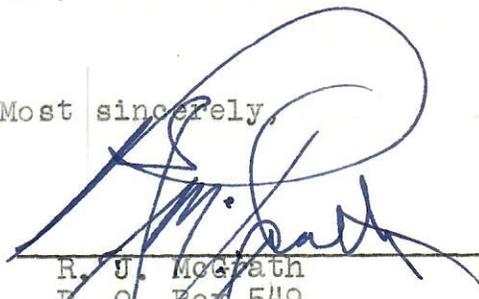

Find that by mistake I must have referred to a card on another well also in T 34S - R 41W., but in Morton County, Kansas, just over the state-line, while the well which I wish information on is the Midwest well in the NE1/4NW1/4 of Sec. 10 - T 34S., R 41W., 6th P.M., in Baca County, Colorado.

There being Ranges 41, 42 and 43, and all West of the 6th P.M., in both southwestern Kansas and southeastern Colorado, only place in the United States where a like condition exists, is a bit confusing and the history covering the fact most interesting.

Another interesting thing in this same area, is the fact that one can travel a little over 80 miles, mostly over the Cimarron cut-off of the Old Santa Fe Trail, and have been in five states.

Thanking you, I am

Most sincerely,

  
R. J. McEvath
