(Well No.)	(Lease)	(1/4 Sec.)	(Sec.)	(Twp.)	(Range)	(Meridian)

 The Well is located 2970 Ft. (N) of Section Line and 2310 Ft. (E) of West Section Line.  
 (S) 330 (W)

The elevation above sea level is \_\_\_\_\_ Ft.

Details of Plan of Work: (State names of and expected depths to objective sands. Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

- (1) Operator proposes to drill the above described well to an approximate depth of 4800 feet, the purpose of which is to test the Topeka, Lansing and Morrow formations for commercial production of oil and/or gas.
- (2) Surface casing will be 8-5/8" slip joint, 24#, set at approximately 1200 feet and cemented with 700 sx cement.
- (3) Engineer's plat showing ground elevation and exact footage of location will be furnished within the next few days.
- (4) Subsequent timely reports will be submitted concerning this well.
- (5) This Notice of Intention to Drill is filed pursuant to provisions of Order No. 34-2 and the well is located on a drilling unit of 640 acres on which no other well is completed or approved for completion for the production of gas.
