INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

This submission is to close a registered produced water pit. There is no indication of a pit at well location or at ECMC registered location. The well was plugged in 1995.

PROPOSED SAMPLING PLAN

Proposed Soil Sampling

Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

Due to the well was plugged in 1995, request that no soil sample be taken, if sample will be required, request that original soil sample only include SAR, EC, boron and PH. If any over Table 915-1 limits, full Table 915-1 soil analysis will be done.

Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Proposed Surface Water Sampling

Will surface water samples be collected as part of this investigation? (Number, analyses, and locations of samples):
