Re: Notice of Intent to Conduct Subsequent Operations
HSR Sawdy 14-36
Township 4 North, Range 66 West
Section 36: SE/4SW/4
Weld County, Colorado

Dear Mr. and Mrs. Smith:

The Colorado Oil and Gas Conservation Commission (COGCC) has adopted guidelines and procedures regarding activities affecting the surface. These rules stipulate an affected surface owner must be given notice in writing by an operator at least seven (7) days (fourteen (14) days on irrigated lands) prior to beginning subsequent well operations or those operations that will materially impact surface areas beyond the existing access road or well site.

HS Resources, Inc. (HSR) intends to begin operations to complete the Sussex/Shannon formation in the above referenced oil and gas well as soon as equipment is available, title is approved and sometime during the next two months.

A brochure is available upon request from the COGCC, 1120 Lincoln Street, Suite 801, Denver, CO 80203 describing surface owner rights and responsibilities. It is your responsibility to notify the tenant farmer, if applicable, of this proposed operation. Should you have any questions and/or concerns, please contact our office.

Very truly yours,

HS RESOURCES, INC.
