### AFTER

8/26/2023: Landowner is utilizing his land near the well pad for his personal storage. We have removed unused equipment and are in the process of continuing to remove unused equipment (butane tank). Hopefully this will help in the confusion as to why he is parking on his personal property. These landowner items are not hindering work nor are causing safety issues. Once we have butane tank removed, landowner will have even more room for his personal storage.

8/26/2023: Removed meter house and the removed all piping and removed underground lines not in use.
